EGYPT'S STRONG MAN "SOFTENS UP"—General Mohammed Naguib, premier and "strong man" of Egypt, is being "softened up" as he is kissed on hand and cheek by villagers of Sahragi El Sayhna during his visit to the community after a discussion free fire the previous day. He had 250 houses and left 200 families homeless. Sparks blown from burning wood which was being stored by an old woman from one house to another started the conflagration.—Central Press Canadian.

A FIRE CAN BE A COLD BUSINESS IN 10 BELOW WEATHER—While hot drinks provided by workers of Salvation Army were the "hot" item, their victims from on clothes of these two burned who helped fight fire estimated at between \$500,000 and \$1,000,000 at Collingwood, Ont. One fireman is in hospital, four people are homeless and the northwest section of the town's main street lies in ice-cooled ruin, the aftermath of a severe fire loss in Collingwood's history. Flamed by a blizzard in 10 below zero temperature, the all-day fire started in a furniture store and swept in two directions through the three-story brick block to destroy a furniture, appliance and equipment store. Flames were licking close to the post-office and mail had to be removed before the fire was stopped. Believed to have started from an oil space-heater in furniture store, the fire had gained good headway before residents of second-floor apartment directly over it smothered smoke.—Central Press Canadian.

VICTIMS OF WORST FLOODS IN FIVE CENTURIES—The worst floods to hit Europe and Holland since the 15th century has caused hundreds of deaths and untold damage. Deep waters, whipped up by hurricane winds, crumpled dykes and miles of sand dunes which had held back the North Sea from Holland for centuries. Hundreds of people are stranded on roof tops and trees awaiting rescue via boat, seen above, from flood waters, which have covered one-third of their country and caused damage unparalleled in Holland's history.—Central Press Canadian.

LODGE TAKES OVER AS U.S. ENVOY TO U.N.—Henry Cabot Lodge, 72, 10-year-old ex-ambassador from Manchuria, is being presented his credentials as chief of the U.S. delegation to the United Nations to U.N. Secretary-General Trygve Lie, (right), at U.N. headquarters in New York. Having succeeded Warren A. Austin, who resigned, Lodge is charged with the task of carrying on President Eisenhower's inaugural pledge of transforming the U.N. into more than a symbolic peace instrument.—Central Press Canadian.

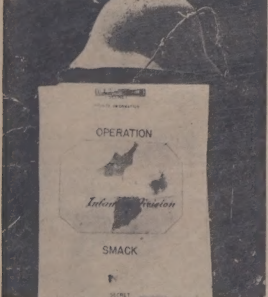

GIRL OF 20 IS MOTHER OF 11 CHILDREN—When 20-year-old Agnes Fisher of Arthon, Ont., accepted the marriage proposal of twice-married 40-year-old George Fisher, she automatically became the mother of 10 children, four by her husband's first marriage and six by his second. Five stepchildren of the second marriage, orphaned at the death of their mother, she became her charges. And now there is an 11th child, Kenneth, three months old at the third marriage. The new mother came to the already orphaned family without fanfare or fuss, gathering the children around her as her own and showering on them the motherly care as their own mother would do, although she is only slightly older than some of the children herself. Mother, father and 11 children, seen above, make one big happy family in the warm home three miles south of Durham, Ont., which heads its business to take care of the family. "They all get the same consideration and care, like to eat," said their father. "One is the same as another and all are made to feel part of the same group."—Central Press Canadian.

SCOTTISH HEADSCARF—A model wears one of the Elizabeth the First headscarves which have been manufactured under the sponsorship of the Scottish Covenant Association. The head is adorned with the Lion of Scotland and the Cross of St. Andrew, and bears the inscription Elizabeth II, Queen of Scots. Contention of the Association is that Queen Elizabeth I (1533-1603) was not the Queen of Scotland, therefore the title Queen Elizabeth II for the present Queen would not be justified.—Central Press Canadian.

FIREMEN BATTLE STURBORN GAS WELL BLAZE—Wind-whipped flames, visible for 10 miles engulfed five gas wells at an offshore oil drilling platform at Morgan City, La., situated in the Gulf of Mexico the blast was under fire from a team of anti-tank experts from nearby Camp Fike who were down to the bone with a 75 millimeter rifle in an attempt to puncture the superheated oil of the wells so the flames, shooting horizontally to the water in the aerial photographs, would then decay, release the danger to other wells and enable standard fire-fighting efforts to be brought into play.—Central Press Canadian.

A GRIM REMINDER OF LATEST U.N. LOSSES IN KOREA—A grim reminder of the recent unprovoked U.N. attack on Pusan Hill in Korea is this elaborate mimeographed program for "Operation Smack" hung on a wall of a hotel near the scene of the attack and topped by a battered Communist helmet. The program is a picture of American forces were lost in subject of much discussion in Washington, Korea and London. U.S. Congress has presented a probe to determine whether U.N. soldiers were needlessly sacrificed in the attack, launched in the presence of invited guests who were supposed to have been given copies of timetable to help them follow progress stage of the war. The attack failed within 15 yards of the crest, and the troops finally pulled back to their own lines. The operation was named Smack because commanders were convinced that the air and artillery support literally would smack Communists to smithereens.—Central Press Canadian.

OVERTURNED FRIGATE—The overturned frigate Berkeley Castle in background lies on its side at naval dockyard in Gibraltar, on the south side of the Atlantic, after it was struck by greatest hurricane to hit England in over 500 years. The dock wreckage where the submarine Sinker sank can be seen in foreground. No lives were reported lost on either of the ships. As R.A.P. meteorological expert gave the technical explanation behind the floods, Gale-force winds hit the east coast of England drove a great pressure of sea water into estuaries and inlets in the same way monsoons pile up in valleys. Combined with a high tide the result was a great rise in water levels.—Central Press Canadian.

WOMAN SAILS ATLANTIC ALONE—Mrs. Ann Davison, 25, is shown in her 22-foot yacht, Felicity Ann, in which she sailed the Atlantic alone, thus becoming the first woman in history to do so. She set sail from Plymouth, England, last May 18 and has reached the West Indies. Her first attempt to cross the Atlantic with her husband, ended in disaster. Their 70-foot ketch sank in a storm and he was drowned. She vowed she would make the crossing alone.—Central Press Canadian.

FALLEN STAR PLAYS NEW ROLE AS RED NYL—Shenando in an invader's chair, Maria Anna Knuth, former German movie actress, Rome, Italy, is Communist. Joy in the first trial of his kind since the war in Poland a Communist. She is accused of giving vital West German secrets to Communist Poland and of recruiting three high Frankfurt police officers into her Red cell. It is charged Mrs. Knuth has been on the Polish Communist journal since 1948.—Central Press Canadian.

CANADA ESCAPES "WIDESPREAD" OUTBREAK OF FLU—This winter, caught by a high-speed stream of air in effect, those within a considerable radius of the source, even though precautionary methods are taken. This unexplained missing is helping to spread the influenza that has reached epidemic proportions in U.S., France, Germany, Britain, Japan and Italy. In Canada no widespread outbreaks of the flu have been reported. Federal health authorities have announced the launching of tests of the vaccines in hospitals and industrial plants. The tests, likely to be completed in April, are to show the protective value of a vaccine being prepared in Toronto and aimed at knocking out different types of flu virus.—Central Press Canadian.

Auditor's Financial Statement for Drumheller School Division, No. 30

For the Year Ending December 31st, 1952

Auditor: Christian and Kergan, Chartered Accountants Box 606, Drumheller, Alberta. Chairman: W. P. Hourigan, Town of Delia, Alberta. Secretary-Treasurer: A. W. Poland, Drumheller, Alberta.
